

# LET THEM BREATHE

HELP UNMASK OUR KIDS!

Sign our school board petition at

**PPPC.ME/EXETER**

The Exeter Township School Board is no longer bound by the state mask mandates.

We urge this district to stop the policy of “mandated masking.”

We look forward to seeing the smiling faces of our healthy children returning to school without masks.

- Rockwood Area School District in Somerset County, PA just voted on May 18 to make **face coverings optional and voluntary** for students and staff, regardless of their vaccination status.(source: dailyamerican.com)
- 18 states that had mask orders covering the general public have fully lifted them. Eleven states did not impose mask mandates at any point during the pandemic. (source AARP)
- Texas, South Carolina, Florida and Iowa **have banned masks** in public schools. These states have shown no substantial spread of COVID-19
- Unvaccinated kids are at the same risk of hospitalization as vaccinated adults: **about .0035%**(source CDC.gov)
- Vaccinating 300,000 people under 18 years of age is statistically likely to prevent one COVID death and likely to cause 3 vaccine-related deaths (source VAERS data & CDC.gov)
